## REMARKS:

The figures of births and deaths shown in this statement for week ending the 22nd October, 1955, relate to 182 towns with an estimated population of 25,836 thousands. The total number of towns is 300 and their population is 38,988 thousands. Thus 61% of the total number of towns representing 66% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 21,128 and 7,130 representing birth and death rates of 42.5 and 14.4 per thousand of population respectively.

(a) *States (Part A and Part C).*—The data here relate to 152 towns with an estimated population of 22,034 thousands. Information about Ajmer, Bihar, Madhya Pradesh & West Bengal could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 60% of the total number of towns representing 68% of the

total population is covered. The number of births and deaths recorded in these towns were 18,788 and 6,302 representing birth rates and death rates of 44.3 and 14.9 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) *States (Part B).*—The data here relate to 30 towns with an estimated population of 3,802 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 63% of the total number of towns representing 59% of the total population is covered. The number of births and deaths recorded in these towns were 2,340 and 828 representing birth and death rates of 32.0 and 11.1 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
